**Subject:** Methods List and Glycol Method Page

Terry,

As per our discussion, here is the methods list and glycol page that was used to summarize the specific analytical methods used for the Dimock Residential DW Site. These were already released outside of the agency so I don't see a problem with forwarding them directly to Laura Johnson/ORD Cinn.

I need to send the analyte list and QLs separately since I will need to obtain the latest version from Rich Rupert. The SAP should be on the OSC Dimock web page.

Cindy
